HUNTER'S BANE

Level 1

You have advantage on Wisdom (Survival) checks to track fey, fiends, or undead, as well as on Intelligence checks to recall information about such creatures. The Hunter's Bane also empowers your body to control and shape hemocraft magic. Some of your features require your target to make a saving throw vs your Hemocraft Save DC.

BLOOD MALEDICT

Level 1

You know one blood curse of your choice. You learn one additional blood curse at 6th, 10th, 14th, and 18th level. While invoking a blood curse, but before it affects the target, you can choose to amplify the curse by taking necrotic damage equal to one roll of your hemocraft die. Once you use this feature, you must finish a short or long rest before you can use it again. You can use Blood Maledict twice between rests at 6th level, three times starting at 13th level, and four times starting at 17th level.

CRIMSON RITE

Level 2

As a bonus action, you can activate any rite you know on a weapon you're holding. The effect lasts until you finish a short or long rest. When you activate a rite, you take necrotic damage equal to one roll of your hemocraft die. Attacks you make with this weapon are magical, and deal extra damage equal to your hemocraft die. A weapon can hold only one active rite at a time. You know one crimson rite. You learn an additional crimson rite at 7th level, and again at 14th level.

BRAND OF CASTIGATION

LEVEL 6

When you damage a creature with a weapon imbued with your crimson rite, you can brand that creature (no action). You always know the direction to the creature as long as it's on the same plane as you. Each time the creature deals damage to you or a creature you can see within 5 feet of you, the branded creature takes psychic damage equal to your Hemocraft modifier (minimum of 1). Your brand lasts until you dismiss it or til you brand another creature. You can't use it again until you finish a short or long rest.

At 13th level, the psychic damage from your Brand of Castigation increases to twice your Hemocraft modifier (minimum of 2). Additionally, a branded creature can't take the Dash action, and if it attempts to teleport or leave its current plane, it takes 4d6 psychic damage and must make a Wisdom saving throw. On a failure, the attempt to teleport or leave the plane fails.
